

The Nation's Providers Rely on CAQH

Less paperwork, more time with patients

The CAQH Provider Data Portal is trusted by millions of providers to exchange self-reported data for credentialing, directory updates and other important healthcare processes.

Reduce administrative burden

- Complete a single credentialing application that is accepted in all 50 states even those with unique state forms.
- Easily manage your profile including documents in one secure location.
- Authorize health plans to access your information for credentialing, directories and more.
- Delegate staff to manage non-sensitive information on your behalf.
- Update your profile quarterly to reduce telephone and email requests from plans.
- Available at no charge to providers.

Visit <https://proview.caqh.org> to complete your profile or access support and training.
